## Planning and Environment Notices

### CONTAMINATED LAND MANAGEMENT ACT 1997

#### Section 11

Environment Protection Authority

Declaration of Significantly Contaminated land

Declaration Number 20151103; Area Number 3389

The Environment Protection Authority (EPA) declares the following land to be significantly contaminated land under the *Contaminated Land Management Act 1997* (“the Act”):

#### 1. Land to which this declaration applies (“the site”)

This declaration applies to 390 Princes Highway, Blakehurst NSW 2221 (described as Lot 1 in DP 519832), in the local government area of Kogarah City Council.

A map of the site is available for inspection at the offices of the Environment Protection Authority, 59 Goulburn Street, Sydney, NSW.

#### 2. Nature of contamination affecting the site:

The EPA has found that the site is contaminated with the following substances (“the contaminants”):

- Total Petroleum Hydrocarbons
- Total Recoverable Hydrocarbons
- Benzene, Ethylbenzene, Toluene and Xylenes
- Polycyclic Aromatic Hydrocarbons including Naphthalene
- Phase Separate Hydrocarbons in site groundwater

#### 3. Nature of harm that the contaminants may cause:

The EPA has considered the matters in s12 of the Act and for the following reasons has determined that the land is contaminated and that the contamination is significant enough to warrant regulation under the Act:

- Groundwater at the site is contaminated with total petroleum hydrocarbons (TPH), total recoverable hydrocarbons (TRH), benzene, toluene, ethylbenzene and xylene (BTEX) and naphthalene, at levels exceeding relevant human health based guidelines.
- Phase Separate Hydrocarbon (PSH) contamination has been detected at the site.
- The extent of dissolved phase and PSH contamination is not delineated, and monitoring data suggests the plumes may extend off site.
- Contaminated groundwater poses may affect off-site residential properties, and pose a potential risk to on-site and offsite workers accessing underground utilities and excavations.

#### 4. Further action under the Act

The making of this declaration does not prevent the carrying out of voluntary management of the site and any person may submit a voluntary management proposal for the site to the EPA.

#### 5. Submissions invited

The public may make written submissions to the EPA on:

- Whether the EPA should issue a management order in relation to the site; or
- Any other matter concerning the site.

Submissions should be made in writing to:

Manager Contaminated Sites  
Environment Protection Authority  
PO Box A290  
Sydney South NSW 1232

or faxed to 02 9995 6603

by not later than 16 April 2015.

Date: 26 March 2015

NIALL JOHNSTON  
Manager Contaminated Sites  
Environment Protection Authority

#### NOTE:

#### Management order may follow

If management of the site or part of the site is required, the EPA may issue a management order under s14 of the Act.

#### Amendment/Repeal

This declaration may be amended or repealed. It remains in force until it is otherwise amended or repealed. The subsequent declaration must state the reasons for the amendment or repeal (s44 of the Act).

#### Information recorded by the EPA

Section 58 of the Act requires the EPA to maintain a public record. A copy of this significantly contaminated land declaration will be included in the public record.

#### Information recorded by councils

Section 59 of the Act requires the EPA to give a copy of this declaration to the relevant local council. The council is then required to note on its planning certificate issued pursuant to s149 (2) of the *Environmental Planning and Assessment Act 1979* that the land is declared significantly contaminated land. The EPA is required to notify council as soon as practicable when the declaration is no longer in force and the notation on the s149 (2) certificate is no longer required.

#### Relationship to other regulatory instrument

This declaration does not affect the provisions of any relevant environmental planning instruments which apply to the land or provisions of any other environmental protection legislation administered by the EPA.
