Declaration
XI FIP World Polo Championship
Section 57(1) of the Major Events Act 2009

I, Marcus Ray, Deputy Secretary, Planning Services of the Department of Planning and Environment, having formed the opinion that:

1. the activities specified in clause 5 of Schedule 1 are necessary for, ancillary to, and otherwise associated with the conduct of the XI FIP World Polo Championship; and
2. it is necessary to impose a range of noise mitigation measures to minimise possible noise impacts on residents from the proposed activities;

make the following declaration under section 57(1) of the Major Events Act 2009 as described in Schedule 1.

Marcus Ray
Deputy Secretary, Planning Services of the Department of Planning and Environment and responsible authority for the XI FIP World Polo Championship.

Sydney, 3rd October 2017

(b) The hours of operation specified under clause (a) do not apply to the use of generators, activities associated with feeding and grooming of horses, other activities inaudible outside the boundary of the major event site, or emergency activities.

(c) Generators that are used at night are to be selected with an appropriate acoustic performance or acoustically treated to ensure noise impacts at nearby sensitive receivers are minimised.

(d) Public announcement systems are to be minimised.

(e) Speakers/amplifiers used during the major event period are to be selected, designed, mounted, positioned and angled within the event site to minimise noise spill from the major event site. The authorised persons must seek professional acoustic advice in this regard.

(f) Where possible, the International Polo Field is to be used for the noisiest activities.
(g) Amplified music and public announcement systems must not be used before 8:00 AM on any day during the major event period.

(h) The authorised persons shall manage noise from the event in accordance with a Noise Management Plan.

(i) Prior to the start of the bump-in period, potentially affected residents shall be notified by letter box drop and must include the following information at a minimum:
- event start and finish times
- likely noise generating activities
- information on where noise sensitive receivers may make a complaint in relation to noise impacts associated with the event
