### PART 5 – OPERATING CONDITIONS

#### 11 Making a vehicle smaller

11.1 A vehicle or combination without a load must be reduced to its smallest practicable dimensions, with any booms fully retracted.

11.2 The projection from the rear of a vehicle or combination must be minimised as far as practicable.

#### 12 Warning devices for oversize vehicles

12.1 Clause 12 does not apply to a vehicle or combination carrying an indivisible item that is a sailing boat or yacht.

12.2 A vehicle or combination, alone or together with any load, that is wider than 2.5m must have:

(a) one warning sign attached to the front of the vehicle, and

(b) one warning sign attached to the rear of the vehicle or, if it is carrying a rear-projecting load, to the rear of the load; and

(c) 4 brightly coloured red, red and yellow, or yellow flags, each at least 450mm by 450mm, fixed as follows:
(i) a flag must be attached at each side of the front of the vehicle or, if a load projects from the front of the vehicle, at each side of the front of the load;
(ii) a flag must be fixed at each side of the rear of the vehicle or, if a load projects from the rear of the vehicle, at each side of the rear of the load.

12.3 A light vehicle or light combination, together with its load, is not wider than 2.5m, and whose length is more than 22m, must have a warning sign attached to the rear of the vehicle or, if a load projects from the rear of the vehicle, to the rear of the load.

12.4 After sunrise and before sunset, a vehicle or combination must display a warning light if the vehicle, together with any load, is wider than 3.0m.

12.5 A warning sign must be displayed on the left and right sides of any rigid projection extending more than 1.2m in front of the body of a vehicle or combination.

12.6 The warning lights and signs must comply with the requirements set out in Part 3 of Schedule 8 of the Heavy Vehicle (Mass, Dimension and Loading) National Regulation (NSW).

13 Additional warning devices for agricultural vehicles or combinations

13.1 An agricultural vehicle or agricultural combination wider than 2.5m, or an agricultural combination longer than 22m, must have a warning light attached to its highest practicable point when it is on a major road.

13.2 A warning sign must be attached to the rear of an agricultural implement being towed by a tractor.

14 Travelling at night or in low visibility

14.1 A vehicle or combination which is or includes an agricultural vehicle may not travel between sunset and sunrise.

14.2 A vehicle or combination wider than 2.5m which is carrying an indivisible item or any load, and which is not or does not include an agricultural vehicle:
   (a) Is not permitted to travel between sunset and midnight; and
   (b) Is only permitted to travel between midnight and sunrise in the NSW Urban Zone and the NSW Regional Zone:
      (i) on routes and areas determined by Roads and Maritime Services to be suitable and published in the relevant notice on its website;
      (ii) if the vehicle or combination does not exceed 2.7m in width; and
      (iii) if the vehicle or combination exceeds 2.7m in width but does not exceed 3.5m in width, it must be accompanied by at least one pilot vehicle.

14.3 Despite clauses 14.1 and 14.2, where travel commenced before sunset and sunset occurs during the journey, the operator is permitted to continue to travel for a distance not exceeding 10 kilometres for the sole purpose of stopping at a safe parking area.

14.4 A vehicle to which this Order applies may not travel if, due to circumstances such as fog, heavy rain, smoke or other conditions visibility is less than 250m.

14.5 If a vehicle or combination is already travelling when visibility is reduced to the level described in clause 14.4, the driver must drive the vehicle into the nearest
safe parking area, and wait until visibility improves beyond that level before continuing to travel.

15 **Additional warning devices at night**

15.1 Clause 15 does not apply to:

(a) a vehicle or combination carrying an indivisible item that is a sailing boat or yacht; or

(b) an agricultural vehicle or combination.

15.2 Between sunset and sunrise, an oversize vehicle or combination must display:

(a) lights showing yellow to the front and red to the rear (known as *side markers*) no more than 2.0m apart along both sides of the vehicle and along any front or rear projection, and

(b) two red lights (known as *rear markers*) fixed to the rear of any rear-projecting load, within 400mm of each side of the load, and at least 1 metre but not more than 2.1m above the ground, and

(c) a warning light if the vehicle or combination, together with any load, is wider than 2.5m.

16 **Headlights**

16.1 A vehicle or the towing vehicle in a combination must have its low-beam headlights on while travelling between sunrise and sunset.

16.2 A vehicle or combination that has fitted to it daytime running lights may use the daytime running lights instead of headlights during the day time.

17 **Allowing other vehicles to overtake**

17.1 This clause applies if there is no separate lane for overtaking traffic.

17.2 If traffic banks up behind a vehicle or combination to which this Order applies, its operator must move it to the side of the road, and if necessary, stop as soon as it is safe to do so to allow following vehicles to overtake.

18 **Assessing Routes**

18.1 A vehicle or combination must not be driven along a route if to do so would be likely to cause:

(a) disruption to telecommunication, electricity, rail, gas, water or sewage services (relevant services);

(b) damage to a road (including a bridge), structure, rail crossing or tree (relevant property).

18.2 Clause 18.1 does not apply if the entity responsible for the relevant services or relevant property has given permission for the vehicle or combination to travel along the route and the vehicle or combination is driven in accordance with the permission.

19 **Carrying goods in addition to an indivisible item**

19.1 A vehicle or combination must not carry more than 1 indivisible item unless:

(a) the vehicle together with its load complies with this Order and the Gross Combination Mass (GCM) does not exceed 4.5 tonnes; and

(b) the vehicle carrying more than 1 indivisible item does not cause the vehicle together with its load to exceed a dimension requirement that
would not be exceeded if the vehicle carried only 1 of the indivisible items.

19.2 A load-carrying vehicle carrying 1 or more indivisible items must not carry any other goods unless:
   (a) the vehicle together with its load complies with this Order and the GCM does not exceed 4.5 tonnes; and
   (b) the other goods are contained within the limits set by this order and the road transport legislation.

19.3 Despite clause 19.2 above, a vehicle or combination may also carry equipment, tools, substances or detached parts to be used in conjunction with the vehicle being carried.

19.4 A vehicle or combination carrying a sailing boat or yacht must not carry more than one indivisible item of that kind during any one journey.

20 Agricultural vehicles not to use freeways
20.1 An oversize agricultural vehicle or combination must not be driven on a freeway.

21 Agricultural implements not to carry loads
21.1 An agricultural implement must not carry a load or passengers.

22 Speed limits for agricultural implements without brakes
22.1 An agricultural implement without brakes must not be towed at a speed greater than the lesser of:
   (a) 20 km/h less than the speed limit applying to the section of road on which the implement is travelling, and
   (b) 50 km/h.

23 Restriction on towing other vehicles
23.1 An agricultural implement, agricultural machine or a vehicle carrying an indivisible item must not tow another vehicle.

24 Use of pilot vehicle
24.1 Subject to any additional travel conditions published in accordance with clause 9 of this Order, an agricultural vehicle and agricultural combination of a width described in Table 2 must be accompanied by a pilot vehicle as stated in Table 2.

24.2 An agricultural vehicle or agricultural combination that is travelling less than 500m is not required to comply with Table 2 or Table 3.

24.3 Subject to any additional travel conditions published in accordance with clause 9 of this Order, a grain auger combination of a width and/or rear overhang described in Table 3 must be accompanied by a pilot vehicle as stated in Table 3.

25.6 A pilot vehicle must only have a warning light attached:

(a) above or below the warning sign; or

(b) at each side of the warning sign.

25.7 A warning light attached to a pilot vehicle, when switched on, must:

(a) be a yellow coloured light of rotating and flashing effect; and
