PESTICIDES REGULATION 2017

ADDITIONAL QUALIFICATIONS FOR RPA APPLICATOR PILOT LICENCE

Pesticides Regulation 2017 clauses 19(5) and 19(9)

BACKGROUND

Under clause 19 (9)(b) of the *Pesticides Regulation 2017* the Environment Protection Authority (EPA) can specify in a notice an additional qualification for a licence. A person remotely piloting an unmanned aircraft (RPA) that is being used to aerially apply pesticides must have a licence issued under the *NSW Pesticides Act 1999*. The prescribed qualification for an RPA applicator pilot licence under clause 19(5) of the *Pesticides Regulation 2017* is for a person to hold a remote pilot licence issued by the Civil Aviation Safety Authority (CASA) under the *Civil Aviation Act 1988* of the Commonwealth. Under clause 19(9)(b) of the *Pesticides Regulation 2017*, the EPA may determine an additional qualification required for a licence.

The EPA has determined that a person who remotely pilots an unmanned aircraft that is used to aerially apply pesticides must have training and knowledge in the use of pesticides to safely and effectively carry out such work. The EPA, in this notice, determines specific units of competency that are an additional required qualification for holding an RPA applicator pilot licence.

REVOCATION OF PREVIOUS APPROVAL

The Notice of Additional Qualifications for RPA Applicator Pilot Licence under the *Pesticides Regulation 2017* published in the NSW Government Gazette No 59 of 8 June 2018 at page 3527 is revoked.

ADDITIONAL QUALIFICATIONS FOR RPA PILOT

By this notice, and in accordance with cl 19(9) of the *Pesticides Regulation 2017*, the EPA determines the following additional qualifications:

1. Additional qualification for an RPA applicator pilot licence

The following units of competency are an additional qualification, determined by the EPA, for the purposes of qualifying to hold an RPA applicator pilot licence under clause 19(5) and clause 19(9)(b) of the *Pesticides Regulation 2017*. The units of competency are:

- (i) unit code AHCCHM304 Transport and store chemicals; and
- (ii) unit code AHCCHM307 Prepare and apply chemicals to control pest, weeds and diseases;

specified in the AHC Agriculture, Horticulture and Conservation and Land Management Training Package.

If pesticide users have achieved one of the competency units superseded by the unit codes AHCCHM304 and AHCCHM307, they do not need to be trained or assessed until 5 years after the date on which they were issued their certificate or statement in recognition of their achievement of these competencies (see note 2).

The units of competency in this notice and their assessment requirements are available on the register of nationally recognised training components at www.training.gov.au.

Commencement

This Approval takes effect on publication in the NSW Government Gazette.

Signed:

ASELA ATTAPATU
Director Hazardous Materials Chemicals and Radiation
NSW Environment Protection Authority
(by delegation)

NOTES

1. Minimum standard

All RPA pesticide users must seek training that is appropriate for their level of work and responsibility from Registered Training Providers. All RPA pilots that are using pesticides as part of their work must obtain chemical training at Australian Quality Framework Level 3 (AQF3). Persons undertaking RPA applicator pilot work are required to attain both unit AHCCHM304 (*Transport and Store Chemicals*) and unit AHCCHM307 (*Prepare and apply chemicals to control pests, weeds and diseases*), which are part of the AHC Agriculture, Horticulture and Conservation and Land Management Training Package.
