Government Gazette
of the State of
New South Wales

Number 39
Friday, 28 February 2020

The New South Wales Government Gazette is the permanent public record of official NSW Government notices. It also contains local council, non-government and other notices.

Each notice in the Government Gazette has a unique reference number that appears in parentheses at the end of the notice and can be used as a reference for that notice (for example, (n2019-14)).

The Gazette is compiled by the Parliamentary Counsel’s Office and published on the NSW legislation website (www.legislation.nsw.gov.au) under the authority of the NSW Government. The website contains a permanent archive of past Gazettes.

To submit a notice for gazettal, see Gazette Information.

WORK HEALTH AND SAFETY REGULATION 2017

WORK HEALTH AND SAFETY (MINES AND PETROLEUM SITES) EXEMPTION (SURVEY PLANS REFERENCING MINES OR PETROLEUM SITES TO GEOCENTRIC DATUM OF AUSTRALIA 1994 GDA94) 2020

under the Work Health and Safety Regulation 2017

I, Garvin Burns, Chief Inspector, having delegated authority from the Secretary of the Department of Planning, Industry and Environment as the Regulator under the Work Health and Safety Act 2011 in relation to a mine or petroleum site, pursuant to clause 684 of the Work Health and Safety Regulation 2017, grant the following exemption.

Dated this 24th day of February 2020.

Garvin Burns
Chief Inspector
Department of Planning, Industry and Environment
1 Name
This Exemption is the Work Health and Safety (Mines and Petroleum Sites) Exemption (Survey plans referencing mines or petroleum sites to Geocentric Datum of Australia 1994 GDA94) 2020.

2 Commencement
This Exemption commences on the date of publication in the NSW Government Gazette and has effect until revoked.

3 Interpretation
In this Exemption:

geocentric datum of Australia 1994 means the official geodetic datum adopted by the Australian Government on 1 January 1994 and referred to as GDA94.

the Regulation means the Work Health and Safety (Mines and Petroleum Sites) Regulation 2014.

4 Exemption
This Exemption is a class exemption made by the regulator on its own initiative.

This Exemption applies to the requirement for survey plans prepared in accordance with clause 122 of the Regulation to reference a mine or petroleum site to the Geocentric Datum of Australia 1994 (GDA94).

An operator of a mine or petroleum site is exempt from the requirement for the survey plan to reference the mine or petroleum site to the Geocentric Datum of Australia 1994 GDA94.

5 Conditions
(1) A survey plan required to be prepared pursuant to clause 122 of the Work Health and Safety (Mines and Petroleum Sites) Regulation 2014, must reference the mine or petroleum site to the Geocentric Datum of Australia as referred to in clause 5B of the Surveying and Spatial Information Regulation 2017.

6 Exemption does not affect other requirements
Nothing in this exemption affects any other applicable requirement imposed by law in relation to the matters this Exemption applies to.

Reference number:(n2020-481)
3 Interpretation

In this Exemption:

**competent person** means a person who has acquired through training, qualification or experience the knowledge and skills to carry out the task of supervising mining operations at a mine, other than an underground mine or a coal mine, having regard to the location of the mine, the complexity of the mining operations at the mine and the nature of the material mined.

**FTE** means full-time equivalent and is the hours worked by one person on a full-time basis. On an annual basis an FTE is considered to be 2000 hours.

**qualified** means an individual who has the qualifications in clause 31 of Schedule 10 of the *Work Health and Safety (Mines and Petroleum Sites) Regulation 2014*.

**quarry manager** means the statutory function of quarry manager as specified in clause 136 of the *Work Health and Safety (Mines and Petroleum Sites) Regulation 2014* and clause 31 of Schedule 10 of that Regulation.

**the Regulation** means the *Work Health and Safety (Mines and Petroleum Sites) Regulation 2014*.

**tier-3 quarry** means a mine other than an underground mine or a coal mine where the mining operations meet the following criteria:

- (a) 5 or less workers (FTE), including the Quarry Manager and contractors, and
- (b) does not carry out dredging or blasting (explosives) activities, and
- (c) holds a current development consent under the *Environmental Planning and Assessment Act 1979* (the EPA Act) which was not considered designated development pursuant to Section 3, clause 19 of the EPA Act.

**unqualified** means an individual who does not have the qualifications in clause 31 of Schedule 10 of the Regulation.

Terms used in this Exemption have the same meaning as in the *Work Health and Safety Act 2011*, *Work Health and Safety Regulation 2017*, *Work Health and Safety (Mines and Petroleum Sites) Act 2013* and the Regulation.

4 Exemption

This Exemption is a class exemption made by the regulator on its own initiative.

This exemption applies to the following classes of persons and is subject to the conditions specified in clause 5 of this Exemption:

- (a) an operator of a tier-3 quarry who nominates an unqualified individual to be quarry manager at that mine.
- (b) an unqualified individual who is nominated by an operator to be quarry manager at a tier-3 quarry.

The operator of a tier-3 quarry is exempted from the following requirements in the Regulation:

1. clause 129(4)(g), such that a notice in relation to the commencement of mining operations at a tier-3 quarry is not required to include the identification and competency details of individuals nominated to exercise the functions of the quarry manager at a tier-3 quarry;
2. clause 129(6A), such that further notice is not required of a proposed material change to the details of an individual nominated to exercise the functions of the quarry manager at the tier-3 quarry;
3. clause 136(3), such that an individual may be nominated by a mine operator to be quarry manager although that individual is unqualified;
4. clause 136(4), such that an individual nominated by a mine operator to be quarry manager, who becomes unqualified, could be nominated to be quarry manager; and
5. clause 137(1), such that an unqualified quarry manager may supervise mining operations at a mine.

An individual is exempt from the following requirements in the Regulation:

1. clause 136(3)-(4), to the extent that those sub clauses require an individual who is nominated by an operator of a tier-3 quarry to be quarry manager to be qualified; and
2. clause 138, such that an unqualified individual has been nominated to be quarry manager by the operator of a tier-3 quarry does not have to inform the mine operator of their lack of qualifications multiple times.

5 Conditions

The operator of a tier-3 quarry must, at the time they nominate an unqualified individual to be quarry manager at the mine, ensure the unqualified individual they have nominated is a competent person.
6 Exemption does not affect other requirements
Nothing in this exemption affects any other applicable requirement imposed by law in relation to the matters this Exemption applies to.

(1) The biosecurity matter to which this Control Order relates is the disease agent *Salmonella Enteritidis*.

(2) The biosecurity risk to which this Control Order relates is the biosecurity risk posed or likely to be posed by the spread of *Salmonella Enteritidis*.

### 5. Control Zone

(1) Pursuant to sections 62(1)(a) and 67 of the Act, the control zone to which control measures are required to be implemented under this Control Order is the whole of New South Wales.

(2) The control zone is called the **Salmonella Enteritidis Control Zone**.

### 6. Control measures for persons in charge

Pursuant to sections 62(1)(b), 63(d) and 68 of the Act, the following control measures apply to all persons in charge of premises within the control zone.

(1) The production area is to be clearly demarcated from the remainder of the premises or properties on which the production area is situated, so that it is clear whether a person or thing is within or outside of the production area.

(2) All entrances to the production area that are available for use as an entrance must have a clearly visible sign which states words to the effect of “A control order made under the *Biosecurity Act 2015* applies to anyone who enters this area. Unauthorised entry may be an offence. Contact the person in charge before entry to find out how the order applies to you”. All signs must also state how persons entering the area are to contact the person in charge.

(3) A copy of this control order, or information about where to view the control order, is to be provided to all persons entering the production area, prior to entry. Information about the measures in place on the premises and production area to implement this control order and how to follow those measures is also to be made available to all persons entering the production area, prior to entry. When a person seeks permission to enter the production area, the person in charge is only to grant permission if the person agrees to comply with any measures put in place on the premises and production area to implement this control order.

(4) At all entrances to the production area that are available for use as an entrance, there is to be provided either:

(a) A device to enable the scraping of soles of the shoes to remove organic matter of all people entering the area, and footbaths containing a suitable amount of disinfectant so as to enable effective disinfection of all shoes, that has been prepared and is used in accordance with the manufacturer’s instructions. Footbaths are to be inspected daily, and maintained to ensure their effectiveness for disinfection. Maintenance may include removing gross material, topping up the disinfectant or replacing disinfectant before it can deteriorate; or

(b) A sufficient number of ‘shed boots’ that are to be worn by all people entering the production area, and are to be only worn within the production area. Shed boots are to be maintained in a clean condition.

(5) At all the main entrances to the production area that are available for use as an entrance, soap and water, or disinfectant, for hand washing or sanitization of hands are to be provided.

(6) Parking separate from, and external to, the production area must be provided for vehicles entering the premises but not entering the production area.

(7) Equipment and materials, including soap or detergent, for the washing of the wheels, footsteps and wheel arches of vehicles must be provided and maintained at a location on the premises for use by vehicles before and after accessing the production area.
8. Any dead birds on the premises must be stored and disposed of in a manner that prevents vermin and other animals accessing the dead birds.

9. All poultry housing, egg packing facilities and grading facility buildings in the production area must be constructed and maintained to prevent the entry of wild birds and limit the access of vermin, as far as practicable.

10. A vermin control strategy, designed to control all vermin on the premises, must be documented, developed and implemented on the premises. The vermin control strategy is to require:
   a. rodent bait stations must be placed at regular intervals around the production area based on a rodent risk assessment, and not in locations potentially accessible by the chickens. The number of bait stations should be increased in areas where there are signs of increased rodent activity,
   b. bait stations must be numbered, and a map kept of their location,
   c. bait stations must be checked frequently using a risk-based approach and fresh baits laid as required. A record should be kept of each inspection and activity noted,
   d. removal of vermin habitat such as overgrown grass, dense vegetation and debris within the production area and from a buffer zone around the production area of at least 3 metres, as far as practicable, and
   e. records of all actions taken in pursuance of the vermin control strategy, and the actions those steps were taken, is to be maintained.

11. A written record of the name of all persons entering the production area and the date of entry is to be made and kept for 12 months.

12. A written record of the date of all deliveries received into the production area, and of all vehicles that remove anything from the production area, the nature and contents of the delivery or thing being removed and either the number plate and or the name of the company or person responsible for the delivery or removal is to be made or obtained within 1 month of the date of the delivery, and kept for 12 months.

13. A written record of the numbers and dates of all poultry mortalities that occur within the production area is to be made and kept for 12 months.

14. A written record of where all poultry entering the production area have come from, and where all poultry exiting the production area are being moved to is to be made, or obtained within 1 month of the poultry entering or exiting the production area, as applicable, and kept for 12 months.

15. Cardboard egg flats and cartons are to be heat sanitised before use for transporting or storing eggs unless:
   a. They are being used on the same premises or within the same network of premises as they were being used on, on their previous use; or
   b. They are being used for the first time, taken direct from the packaging.

16. Plastic egg flats, and fillers are to be disinfected before use for transporting or storing eggs unless:
   a. They are being used on the same premises or within the same network of premises as they were being used on, on their previous use; or
   b. They are being used for the first time, taken direct from the packaging.

17. Pallets used for storing or transporting eggs on a premises are to be cleaned to remove, as far as practicable, all visible organic matter after each use for transporting or storing eggs, unless:
   a. they are being used on the same premises or within the same network of premises as they were being used on, on their previous use; or
   b. they are being used for the first time, taken direct from the packaging.

18. Pallets used for storing or transporting eggs on the premises are to be stored in a clean area, that is not rodent habitat or potential rodent habitat

7. Control measures for persons entering a production area

Pursuant to sections 62(1)(b), 63(d) and 68 of the Act, the following control measures apply to all persons who enter a production area within the control zone.

1. Prior to entry to a production area, all persons other than the person in charge, must first:
   a. obtain permission from the person in charge to enter the production area. Permission may be provided on an ongoing, or a once-off basis; and
b. familiarise themselves with the measures in place on the premises and production area to implement this control order, made available to all persons entering the production area, prior to entry by the person in charge.

(2) Entry into any production area must be via an entry marked as the entrance to the production area.

(3) Upon entering and exiting the production area persons must either:

a. Scrape their shoes to remove all visible organic matter using the scraping device provided and then disinfect their shoes using the footbaths provided; or

b. Upon entry, remove their footwear and place the “shed boots” provided at the entry on their feet, and upon exit, remove the “shed boots” and leave them at the entrance to the production area. Shed boots are to be worn the whole time the person is in the production area.

(4) If a person is entering the production area in a vehicle, the person must wash the wheels footsteps and wheel arches of that vehicle using the soap or detergent and facilities provided on the premises, to remove all visible organic matter:

a. before entering the production area, and

b. after exiting the production area, before exiting the premises.

8. Duration of control order

This Control Order has effect for a period of 2 years from the date of commencement.

9. Suppliers of poultry

Poultry of numbers of 100 birds or greater must not be supplied to a person or business unless:

(a) that person or business is licenced for poultry egg or meat production or has a provisional licence under the Food Act 2003, and

(b) the property to which the poultry will be supplied and held has a PIC.

Records of all poultry transactions including the licence number and PIC must be kept for 12 months.

10. Receivers of poultry

Poultry of numbers of 100 birds or greater must not be received by a person or business that produces poultry eggs or meat unless:

(a) the person or business is licenced for poultry egg or meat production or has a provisional licence under the Food Act 2003, and

(b) The property to which the poultry will be supplied and held has a PIC.

Records of all poultry transactions including the licence number and PIC must be kept for 12 months.

11. Pullet rearing facilities

Pullet rearing facilities can continue to receive birds without a licence issued under the Food Act 2003, but they must have implemented the measures in this Control Order and the facilities must have a PIC.

Water Notices

SYDNEY WATER ACT 1994 (NSW)
SYDNEY WATER REGULATION 2017 (NSW)

Notice of Water Restrictions

Having regard to the effects of drought, and it being in the public interest for the purpose of maintaining water supply, I give NOTICE in accordance with clause 24 of the Sydney Water Regulation 2017 of the following water restrictions, to take effect at 12.01 am on 1 March 2020.

The water restrictions listed below remain in force until further notice; apply in the whole of the area of operations of Sydney Water Corporation; and apply to all users of drinking water supplied by Sydney Water Corporation or sourced from a water main owned by Sydney Water Corporation or supplied by a person licensed under the Water Industry Competition Act 2006.

Subject to the exclusions below, the following uses of drinking water are not permitted at any time:

- the use of sprinklers, watering systems or hoses for watering lawns, gardens, sporting or racing surfaces, or other vegetation;
- the hosing of paths, driveways, concrete or other paved areas;
- the use of water for cleaning of vehicles, vessels or building structures;
- the unattended running of hoses or taps;
- the filling of a new or existing pool with a capacity of more than 10,000 litres without a permit issued by Sydney Water and in accordance with any conditions attached to that permit; and
- water escaping by leaks, where there has been a failure to comply with a notice from Sydney Water to repair a water leak by a date nominated in that notice.

The following uses are excluded from the restrictions:

- watering of lawns and gardens before 10am or after 4pm on any day using a hand-held hose with an instant on-off mechanism such as a trigger nozzle;
- the use of smart watering systems or drip irrigation systems. Run-off or overspray onto hard surfaces such as pathways is not permitted;
- the use of a hand-held hose with trigger nozzle, sprinklers or watering systems at any time for the establishment of new turf for period of 28 days from the installation date, in accordance with the establishment guidelines provided by the turf supplier or landscaper. Where turf establishment instructions have not been provided, the protocol published on the Sydney Water website must be followed. This exclusion applies only to the newly laid turf, and not to surrounding areas. Run-off or overspray onto hard surfaces such as pathways is not permitted;
- the use of water for animal husbandry purposes;
- non-commercial washing of residential building structures, including windows, walls, gutters and roofing using a bucket, a hand-held hose fitted with a trigger nozzle, or high pressure cleaning equipment;
- non-commercial washing of vehicles or vessels of any type using a bucket and sponge (or similar arrangement), hand-held hose with a trigger nozzle, or high pressure cleaning equipment;
- spot cleaning of paths, driveways, concrete or other paved areas when cleaning with water is necessary for reasons (readily visible to an authorised person) of safety, health, emergency incident. For any use of water under this exclusion any hose must be fitted with a trigger nozzle unless it is used to supply high pressure water cleaning equipment;
- flushing inboard or outboard boat engines by means of a hose fitted with an appropriate flushing device. The water supply must be turned off immediately after flushing to manufacturer specifications is complete;
- use of a hose fitted with a trigger nozzle or high pressure water cleaning equipment for cleaning bilges, or essential safety components on boat trailers including wheels and brakes;
- use of a hose fitted with a trigger nozzle or high pressure cleaning equipment for rinsing vessels immediately after being used in salt water, to a maximum of 10 minutes per vessel at public boat ramps or marinas;
- use of a hand-held hose to fill fixed water tanks in vessels. Unattended filling of water tanks is not permitted;
top-up of the water level in a pool to replace water lost through normal use conditions including evaporation. Over-filling of the pool to a level where there is run-off is not permitted;
• the use of drinking water for dust suppression but only where there is no alternative water source reasonably available in the situation. Where a dust incident involves hazardous dust (e.g. asbestos), use of water must comply with the applicable incident response guidelines for the specific hazardous substance involved;
• the use of bore water, grey water, recycled water from non-potable pipework, or rainwater. This exclusion does not apply where any tank used for storage has also been supplied from Sydney Water’s drinking water system;
• the use of water for public health, fire service testing, firefighting and related purposes, hazard reduction or other essential activities approved in writing by Sydney Water;
• any use of water in accordance with the conditions of an exemption permit granted by Sydney Water.

The penalty prescribed for non-compliance with these restrictions is $220 for an individual and $550 for a corporation.

The Notice of Water Restrictions of 6 December 2019 is revoked.

NOTE:
Sydney Water Corporation may determine definitions of words used in this Notice (such as equipment referred to) and make those definitions available publicly via the Sydney Water website.

LAND ACQUISITION (JUST TERMS COMPENSATION) ACT 1991

Notice of Compulsory Acquisition of Land in the Local Government Area of Sydney

Sydney Metro by its delegate declares, with the approval of Her Excellency the Governor, that the land described in Schedule 1 below is acquired by compulsory process under the provisions of the Land Acquisition (Just Terms Compensation) Act 1991 as authorised by section 38C of the Transport Administration Act 1988 for the purposes of the Transport Administration Act 1988.

JON LAMONTE
Chief Executive
Sydney Metro

SCHEDULE 1

An easement for rock anchors on the terms set out in Schedule 2, and over that part of that piece or parcel of land situated at Surry Hills, in the Local Government Area of Sydney, Parish of Alexandria and County of Cumberland being that part of Lot 1 in Deposited Plan 538913, shown marked "(Y)" in Drawing No. NWRLSRT-RPS-SCS-SR-DWG-000048-A -7-13 Randle Lane, a copy of which is set out in Schedule 3.
SCHEDULE 2

Terms of easement for rock anchors

1. EASEMENT FOR ROCK ANCHORS

1.1 Easement summary

This Easement provides the Authority Benefited with:

(a) access to the Easement Site for the purpose of installing Rock Anchors; and

(b) the right to have the Rock Anchors remain on the Easement Site at all times until expiry of the Easement under clause 1.3.

1.2 Terms of the easement

(a) The Owner of the Lot Burdened grants to the Authority Benefited full, free and unimpeded right for the Authority Benefited to:

(i) enter on, pass and repass over the Easement Site at all times with or without Equipment for the Permitted Purpose and do anything reasonably necessary for that purpose including:

(A) entering the Easement Site; and

(B) taking anything on to the Easement Site; and

(ii) have the Rock Anchors remain on the Easement Site until expiry of the Easement under clause 1.3.

(b) In exercising its rights under this Easement, the Authority Benefited must:

(i) make good any damage to the Easement Site, Lot Burdened and Building to the extent caused by the Authority Benefited;

(ii) carry out all activities so as to cause as little inconvenience as is reasonably practicable to the Owner of the Lot Burdened or any Occupier;

(iii) take all necessary steps to minimise any adverse interference caused by the Authority Benefited to the Owner of the Lot Burdened or any Occupier; and

(iv) comply with all relevant laws relating to the exercise of those rights.

1.3 Expiry of the Easement

(a) As soon as practicable after the date on which the Authority Benefited no longer requires the rights under this Easement, the Authority Benefited must:

(i) de-stress any stressed Rock Anchors but is not required to remove any Rock Anchors installed on the Easement Site pursuant to this Easement; and
(ii) notify the Owner of the Lot Burdened in writing.

(b) This Easement will expire on the earlier to occur of:

(i) 30 June 2021; and

(ii) the date on which the Authority Benefited gives the Owner of the Lot Burdened notice under paragraph (a)(ii).

(c) If this easement has expired under paragraph (b):

(i) the Owner of the Lot Burdened and the Authority Benefited must take all reasonable steps to remove this Easement from the title of the Lot Burdened as soon as practicable, including preparing and executing all necessary documents and producing the relevant certificates of title at Land Registry Services NSW; and

(ii) the Owner of the Lot Burdened may, at its risk and cost, cut the Rock Anchors at any location within the Easement Site and otherwise deal with any part of the Rock Anchors within the Easement Site as the Owner of the Lot Burdened sees fit.

1.4 Incorporation of definitions and interpretation clauses

The provisions of clause 2 apply to this Easement to the extent relevant.

The name of the persons empowered to release, vary or modify this easement:

The Authority Benefited.

2. GENERAL

2.1 Exercise of the benefit of the Easement

The Authority Benefited may, in its discretion, permit any of its Authorised Users to exercise its rights and perform its obligations under any Easement from time to time.

2.2 Conditions

Each of the Conditions constitute and are covenants and agreements by and between the Authority Benefited and the Owner of the Lot Burdened for themselves and their respective successors, assigns and transferees with the intention and agreement that the benefit and burden of such covenants and agreements must pass with the benefit and burden of the Easement.
