

Government Gazette

of the State of

New South Wales

**Number 461–Mining and Primary Industries
Friday, 17 September 2021**

The New South Wales Government Gazette is the permanent public record of official NSW Government notices. It also contains local council, non-government and other notices.

Each notice in the Government Gazette has a unique reference number that appears in parentheses at the end of the notice and can be used as a reference for that notice (for example, (n2019-14)).

The Gazette is compiled by the Parliamentary Counsel's Office and published on the NSW legislation website (www.legislation.nsw.gov.au) under the authority of the NSW Government. The website contains a permanent archive of past Gazettes.

To submit a notice for gazettal, see the Gazette page.

**Ministerial Direction under section 20P
of the *State Owned Corporations Act 1989***

On 20 August 2021 I, as portfolio Minister for the Forestry Corporation of NSW (FCNSW), with approval of the Treasurer, issued a Direction to FCNSW under section 20P of the *State Owned Corporations Act 1989* (SOC Act) to divert selected softwood log exports to domestic markets and to transport those logs primarily using rail (the Direction).

The reasons for issuing the Direction were:

- the impact of the 2019/2020 bushfires on standing timber resources in NSW,
- the current ban of Australian log exports to China,
- increasing demand for timber in the construction sector at a time when supply from imports is decreasing due to global market forces.

The Direction is in the public interest because:

- diverting timber that would otherwise be exported will minimise employment impacts on sawmills in bushfire-affected regions;
- diverting timber that would otherwise be exported will alleviate the flow-on impacts on the construction sector and the cost of housing arising from the shortage of construction timber;
- using rail transport for the diverted timber will minimise local employment impacts by ensuring an existing intermodal is used; and
- using rail transport for the diverted timber avoids the risks of significantly increased truck movements in impacted areas of the State.
